SHARE THE STORY OF YOUR EHS SUCCESS

A comprehensive cloud software solution that presents the right data, in the right format, at the right frequency to visualize performance and risk so you can focus your efforts where they will be most effective.

Core Capabilities

- User Definable Metrics
- Data Visualization & Analysis
- Real-Time Monitoring
- Customizable & Exportable Reporting

EHS Metrics & Reporting Made Easy

Your EHS software should give you a complete and current picture of what is happening in your organization. Unfortunately, many systems make visualizing data and generating reports difficult, and the output is often too complex to provide any meaningful insights into your EHS performance.

VelocityEHS simplifies data visualization and reporting. Our solution is seamlessly integrated with each of our platform products, transforming your EHS data into dynamic reports, tables, charts and dashboard displays. Your most important lagging and leading KPIs are presented with exceptional clarity to help you quickly identify trends and opportunities.

Reporting & Dashboards delivers information in real-time. As soon as data is entered into the system, it is instantly reflected in your dashboard displays and reports. There's no lag, no extra steps, and no time wasted getting the most accurate and up-to-date EHS information. It's the power to make the right decisions with greater speed and confidence.

Your EHS & Sustainability Goals are in Sight

Sustainability is a pillar of successful businesses, and companies who demonstrate a strong commitment to safety and the environment have an advantage in today's highly competitive, highly regulated business environment.

Corporate executives are also increasingly reliant on EHS metrics to provide a more complete picture of risk, and to develop sustainable business strategies. As the person managing your company's EHS data, it is your responsibility to provide them with actionable information that is clear and conclusive.

When you're asked for a last-minute report on your EHS performance, you can have immediate access to an array of fully-customizable reports and dashboards that show your most important EHS metrics. VelocityEHS delivers powerful, flexible data visualization capabilities right out-of-the-box, allowing you to achieve your EHS and sustainability goals faster.
