

WATER QUALITY COMPLIANCE IS EVERYONE'S CONCERN

A comprehensive cloud software solution with powerful monitoring, analysis, and reporting capabilities to help simplify compliance with a range of stormwater/wastewater management standards.

Core Capabilities

- NPDES/SWPPP Compliance
- Sample Monitoring and Analysis
- Loading Rate Calculation
- Data Logging, Verification and Auditing
- TRI Reporting Automation

Water Quality Management Made Easy

Companies with stormwater or wastewater discharges face a long list of monitoring and reporting obligations. Compliance demands precise monitoring and analysis at every point of discharge throughout each of your facilities, in addition to timely and accurate reporting at the local, state and national level.

VelocityEHS Water Quality provides the stormwater/wastewater monitoring and reporting capabilities you need to ensure compliance with a wide range of water quality standards. It's a centralized, cloud-based system for recording and analyzing sample data from every point of discharge across your enterprise — performing complex calculations in real-time to give you the most accurate, up-to-date discharge data available.

Our solution automates a variety of monitoring and reporting tasks including unit conversions, loading rate calculations, flagging exceedances, and generating notifications for discharges that exceed permit limits, — helping you to manage your compliance with greater efficiency, visibility, and ease.

Powerful Capabilities for Any Size Business

No matter how big or small, every facility that has a stormwater or wastewater discharge must submit a discharge monitoring report (DMR). Even wastewater treatment works face their own set of reporting requirements related to the water they source and supply. It's a big challenge that affects every organization in unique ways.

VelocityEHS offers a versatile solution to manage all of your monitoring and reporting tasks, regardless of the complexity of your requirements. You'll be able to quickly record and analyze discharge data, and instantly prepare and submit properly formatted DMRs to state and federal electronic reporting systems.

Our solution helps you manage your wastewater compliance with accuracy and efficiency, and because it's designed for easy use with your tablet or smartphone, you'll have the flexibility to manage your data anywhere, anytime.

The VelocityEHS Platform

Check out all of our EHS management products, including:

VelocityEHS Water Quality is designed for easy use with your tablet or smartphone, giving you the flexibility to manage compliance from anywhere, anytime.

Features & Benefits

Simplified Data Collection

- Centralize all of your stormwater/wastewater discharge data
- Automate data entry in real-time with OSISOFT® PI Interface
- Generate custom PDF data collection forms that instantly upload field measurements to your monitoring database
- Easily import historic discharge data from your existing systems

Real-Time Monitoring & Calculation

- Customizable user preferences provide faster access to discharge monitoring data
- Real-time calculation of sample parameters and loading rates
- Receive alerts when values fall outside accepted ranges or approach permit limits

Effortless Reporting

- Create custom reports to demonstrate compliance with a range of water quality standards
- Automatically generate DMRs for submission to NetDMR and other reporting interfaces
- TRI reporting automation allows quick and easy submission of discharge data to TRI-MEweb

The VelocityEHS Advantage:

True Cloud Solution

Our Water Quality solution can be accessed anywhere, anytime, from any mobile device, and our growing list of mobile apps gives you the flexibility to deploy our solutions even when you're offline.

Helping You Be Better

Eliminate the day-to-day burdens associated with water quality monitoring, calculation and reporting so you can focus on being a more effective EHS leader.

Delivering Value

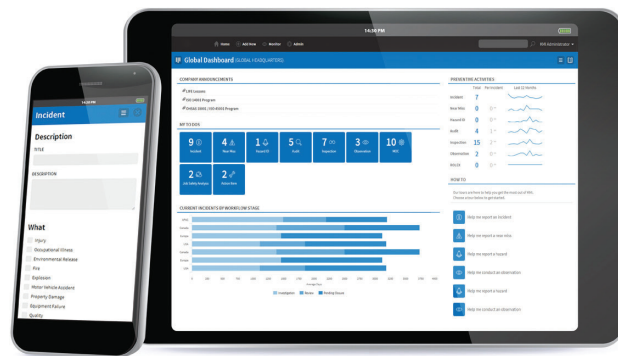

Designed with continuous feedback and industry insights from customers like you, our solutions are more affordable, quicker and easier to implement, and provide the simplest user experience for you and your employees.

Solving Complex Problems Simply

Our simple design and intuitive user-interface means that you spend less time using the software, and more time focusing on the overall safety of your facilities and your employees.

Providing Personalized Service and Support

Our Water Quality solution is backed by our expert team of Customer Success professionals who'll give you the individual attention you need to help reach your EHS goals faster.

Well-designed and intuitive solutions that are available across any device via the cloud give you and your employees anytime, anywhere access to the VelocityEHS platform.
